

# Youth News

It's time to close the summer chapter for 2018. We learned all kinds of important stuff together this summer and made lots of memories as a youth family. We learned how to listen for God's voice. We learned how to follow His voice. We found ways to serve Him this summer and gave to others through service work and volunteering.

Keep working on your **NRG** ("energy"), **New Relationship with God**, as you enter the new school year. Just because the fun activities of summer are coming to an end doesn't mean our spirit and FIRE for Him has to end. Keep listening and following! Stay "on fire"!
