MOULTRIE FUMC: We Love, We Grow, We Serve for Christ.

Spring is in the Air

March brings with it a sense of new to all things. Spring is in the air. Grass is greening. Flowers are blooming. Trees are budding and leafing out. The air temps are warmer. Bugs are flying around. There is increased energy in nature.

It is no accident that we make a strong connection between Easter and spring time. The world comes out of its winter time of inactivity and is ready to live with much more intensity.

In the church we look to Easter as the Day of Resurrection; Jesus came to life after having died. His promises and way of life live on. He promises us new life in the midst of our own deaths. The powers of this world, intent on killing and stopping his Kingdom have not won. God's Kingdom will live on. It will prevail against the gates of Hell itself. We are victors because of what Christ has done for us.

Rev. Stephen Grantham
